Summary

Experienced React Native Developer skilled in React Native, Redux Toolkit, Firebase, Stripe, and In-App Purchases. Proven in building cross-platform apps, resolving complex issues, and optimizing performance for scalable solutions. Expert in third-party API integration and CRM-style workflows for client, sales, and team management. Strong communicator with healthcare and job sector experience, adaptable to retail, education, construction, and e-commerce, with a focus on code quality and continuous improvement. Driven, reliable, detail-oriented.

Experience

React Native Developer | Observance Solution | May 2024 - Present

- **CMe Jobs (Jobseeker & Recruiter Apps):** Led end-to-end frontend development from scratch to deployment, integrating APIs, Firebase SSO, real-time chat, video CV uploads, and job application tracking, ensuring a robust and scalable system.
- **PathoConnect (Phlebo & Customer Apps):** Enhanced and upgraded apps enabling online lab test booking, live phlebo location tracking, specimen collection, and booking management, with improved UI/UX and API-driven workflows.
- **OpenEMR (EMDRU & Patient Apps):** Developed modules for SOS emergency dispatch, telecare (video consultations), online diagnostic test booking, and vital monitoring via PPG, with real-time location tracking and responder–doctor collaboration.
- **Agriq (Grain Quality Analysis App):** Developed a React Native app with BLE integration to capture grain samples via Eyeephy devices and deliver real-time AI-based quality analysis (shape, size, color, moisture) through APIs for transparent market evaluation.
- **Viranchi (Astrology App):** Built and deployed the app end-to-end with features like horoscopes, Panchang, kundli PDF generation, and compatibility matching, integrating Razorpay, analytics tools, deep linking, and smooth UI animations for an engaging user experience.

Education

Bachelor of Technology, United College of engineering and reserach

Information Technology Jul 2018 - Jul 2022

Senior Secondary School, Red Eagle Public Schoool

Science Feb 2017 - Feb 2018

Certifications

Android Development – Cetpa Info tech

May 2022 - May 2022

Android Development with Java

Skills

Frontend & Mobile Development: React, React Native, Android Development, iOS Development

Programming & Scripting Languages: JavaScript (ES6+), TypeScript

State Management: Redux, Redux Toolkit, Redux-Saga

Backend & APIs: RESTful API Integration, Firebase (Auth, Realtime DB, Crashlytics, Analytics)

Payments & Monetization: Stripe Payment Gateway, Apple In-App Purchases

Maps & Realtime Features: Google Maps Integration, Realtime Location Tracking

Version Control & Collaboration: GitHub, Bitbucket, Trello, Microsoft Planner

App Deployment: Play Store, App Store
